

Biodiversity: The importance of Being Different

- 1) What does the coast look like before the Sečovlje salt pans? (rocky, sandy ...)
- 2) What are the living environments we meet in the park Sečovlje salt-pans?
- 3) Describe what the salt pans look like.
- 4) Describe the process of obtaining salt.
- 5) List some examples of the use of salt.
- 6) Take pictures of halophytes (plants that grow in areas with higher salt concentrations) and determine the name of this plant using the identification key:
